SUMMARY

Software engineer building C# and .NET applications since 2022. Develops production .NET 8 services, REST APIs and Angular features for a UK insurance platform. Implements event-sourced domain workflows and asynchronous microservice integrations, with ownership through testing, Azure releases and production incident analysis. Additional experience in React, Next.js and Python automation.

Microsoft Certified: Azure Developer Associate (AZ-204) | Mar 2026

PROFESSIONAL EXPERIENCE

Encora Inc.

.NET Full Stack Engineer | Full-time

Jul 2024 - Present | Craiova, Romania | Hybrid

- Develop and support .NET 8 services, REST APIs and Angular features for a production insurance platform serving the UK market.
- Implement asynchronous workflows across microservices using Kafka, RabbitMQ and Azure Service Bus.
- Model event-sourced insurance workflows with CQRS, MediatR, Domain-Driven Design, Marten and PostgreSQL; build operational and search views in Elasticsearch.
- Own feature delivery through automated testing, Azure releases and production incident analysis.
- Apply Clean Architecture and dependency injection in backend development, with automated tests and code reviews.

FORVIA HELLA

Software Developer | Full-time

Nov 2023 - Jul 2024 | Craiova, Romania | Hybrid

- Developed C#, .NET and Python tools to automate repetitive automotive engineering tasks, including data processing, file handling and report generation.
- Built internal desktop interfaces with C# and VBA; tested automotive control-system software and worked with engineering teams on validation workflows.

Mecafix CNC

Software Developer | Full-time

Sep 2022 - Nov 2023 | Craiova, Romania

- Built a C#/.NET Windows desktop application to automate production-preparation workflows in a metalworking and CNC environment.
- Integrated Python scripts and command-line utilities for file processing, job validation, data parsing and report generation.
- Added background tasks, logging, validation and error handling, with a graphical interface for configuring, running and monitoring workflows.

TECHNICAL SKILLS

Backend: C#, .NET 8, ASP.NET Core, REST APIs, Entity Framework Core, MediatR

Data & messaging: SQL, PostgreSQL, Marten, Elasticsearch, Kafka, RabbitMQ, Azure Service Bus

Frontend: Angular, React, Next.js, TypeScript, JavaScript, HTML, CSS

Delivery: Microsoft Azure, Azure DevOps, Docker, Git, CI/CD, unit and integration testing

ADDITIONAL EXPERIENCE

Oryntech

AI Solutions Engineer & Co-CTO | Contract

Mar 2026 - Sep 2026 (6 months) | Craiova, Romania | Remote

- Co-led technical architecture and developed React, Next.js and TypeScript interfaces for service-business workflows, integrating REST APIs, webhooks, CRM and booking systems.
- Built Python services and voice and chat agent flows for customer conversations, lead follow-up and multi-channel messaging.
- Implemented context management, guardrails, human handoff and testing for LLM-powered workflows.

SELECTED PROJECTS

EShopMicroservices

Independent reference project | github.com/AlbertoMitroi/EShopMicroservices

- Built a .NET 8 and C# 12 e-commerce reference project using ASP.NET Core REST APIs, Entity Framework Core, Domain-Driven Design and CQRS.
- Applied MediatR, FluentValidation and automated testing; used RabbitMQ, Redis, Docker and GitHub Actions with Azure-oriented deployment patterns.

TopZonal

Independent project | In development

- Developing a local-services progressive web app with React, Next.js, TypeScript, tRPC and Prisma ORM.
- Designing Azure components using Docker, Container Apps, Azure SQL, Blob Storage and Key Vault; prototyping semantic search and retrieval-augmented generation (RAG) with Azure OpenAI.

ADDITIONAL TECHNICAL SKILLS

Backend & design: LINQ, async/await, dependency injection, FluentValidation, xUnit, SOLID, Clean Architecture, event sourcing

Project technologies: SQL Server, Redis, GitHub Actions, Tailwind CSS, tRPC, Prisma ORM

Automation: Python, Windows desktop applications, CLI integration, background tasks, logging

CERTIFICATIONS

Microsoft Certified: Azure Developer Associate (AZ-204) | Microsoft | Mar 2026

learn.microsoft.com/en-us/users/albertomitroi/credentials/42efc399d66b1e5c

EDUCATION

Faculty of Automation, Computers and Electronics, Craiova

Master's degree, Artificial Intelligence and Applied Computing

Aug 2026 - Present | Expected Jul 2028

Bachelor of Engineering, Computer Science and Information Technology

Sep 2022 - Jul 2026
