Applied AI: Azure OpenAI, RAG, Large Language Models, Semantic Search, AI Agents

EXPERIENCE

Encora Inc. (part of Coforge) | Craiova, Romania (Hybrid)

.NET Full Stack Developer | Oct 2024 - Present | Full-time

- Develop .NET 8 services, REST APIs and Angular features for a distributed insurance platform serving the UK market.
- Build asynchronous workflows with Kafka, RabbitMQ and Azure Service Bus across a microservices architecture.
- Apply CQRS, Domain-Driven Design and event sourcing with Marten and PostgreSQL; use Elasticsearch for operational and search views.
- Contribute to testing, Azure delivery, incident analysis and operational reliability within the product team.

Oryntech | Craiova, Romania (Remote)

AI Solutions Engineer & Co-CTO | Mar 2026 - Present | Part-time

- Build full-stack AI features and workflow automations for service businesses.
- Develop React, Next.js and TypeScript interfaces connected to APIs, webhooks, CRM and booking workflows.
- Connect voice and chat agents to customer conversations, follow-up and messaging processes.
- Implement context management, guardrails, human handoff, testing and reliability controls.

Encora Inc. | Craiova, Romania (Hybrid)

.NET Full Stack Developer Intern | Jul 2024 - Oct 2024

- Contributed to a trading application using .NET 8 backend services and Angular frontend features.
- Used Azure DevOps, Git, CI/CD, dependency injection and automated testing in a professional delivery workflow.

FORVIA HELLA | Craiova, Romania (Hybrid)

Software Automation Intern | Nov 2023 - Jul 2024

- Built internal automation scripts and desktop tools with Python, C# and VBA.
- Supported software testing for automotive control systems and worked with engineers to improve validation workflows.

PROJECTS

EShopMicroservices

Public repository: github.com/AlbertoMitroi/EShopMicroservices

- Built a .NET 8 and C# 12 e-commerce reference architecture using microservices, ASP.NET Core, Entity Framework Core, DDD and CQRS.
- Implemented RabbitMQ and Kafka messaging, Docker packaging, GitHub Actions and Azure-oriented deployment patterns.

Oryntech.AI

Full-stack product and applied AI work

- Develop React, Next.js and TypeScript product interfaces for AI-assisted service-business workflows.
- Integrate conversational and voice agents with CRM, email, SMS, booking, analytics, APIs and webhooks.

TopZonal

In development

- Build a mobile-first local-services product with React, Next.js, TypeScript and .NET components.
- Prototype semantic search, vector retrieval and RAG-assisted discovery with Azure-oriented infrastructure.
